

D. Spring Retractable Hose Reels

Part number - NS1700-LDF-20-20

Suitable for dispensing:

- Lubricants
- Diesel

Suitable for the following industries:

- General industry
- Mining
- Heavy earth moving equipment

Special features:

- Long hose length capacity
- High strength/rigid frame and drum

Operating Specifications - Bare Hose Reel

Product inlet (swivel inlet)	1 1/4" BSP* Female
Product outlet connection (shaft)	-20 JIC Male
Bare hose reel pressure rating (bar)	100 bar
Maximum operating pressure with standard hose	63 bar

Standard Hose Specification

Type	DIN EN 853 ISN-SAE R1 AT
Hose ø (inches)	1 1/4"
Length (m)	20m
Pressure rating (bar)	63 bar
Bending radius (mm)	420
Weight per length (kg/m) dry	1,23

*BSP/JIC adaptor to be fitted for the USA market
